

CLINICAL PSYCHOLOGY REPORT

Jake Smith
02.16.1970

PREPARED BY
DR. PATRICIA MARLOW
Ph.D., Psy.D.

MARLOW PSYCHOLOGIST ASSOCIATES
1094 W. Broadway, Suite 731, San Diego, CA 92101

NATURE OF INVESTIGATION

The Investigation involved the following:

- Neuropsychological assessment of Jake Smith
- Capacity assessment of Jake Smith

SOURCES OF INFORMATION

No documents were received with the letter of Instruction. The findings in this report are based solely upon a neuropsychological and capacity assessment of Jake Smith. His medical records were requested but not supplied.

REPORT SUMMARY:

Jake Smith appears in sound mind and functionability. His failure to cooperate at times reflect in some lower than his ability scores. His aptitude is well above norms. Mr. Smith's attitude, however, can effect his decision making abilities.

Mr. Smith is upset with the loss of his friend and partner though not in a depressed state of mind that affects his reasoning or daily activities.

Mr. Smith would not benefit from further evaluation or continuing therapy at this time.

In my professional opinion Jake Smith is a normal functioning person and fully capable to return to his position with the San Diego Police Department.

Dr. Patricia Marlow

CLIENT DETAILS

Jake Smith
San Diego Police Detective First Class

DATE OF BIRTH: August 29, 1923

47 years 5 months

ASSESSMENT: January 8 1970 thru January 29, 1970
